# FIRE WARDEN

## About this course

This course is an extension of the Fire Safety course. It covers the basics of the Fire Safety course and then focuses on the key duties and responsibilities of the Fire Warden (sometimes known as a Fire Marshal).

It explores the need for a fire risk assessment and identifying special risk persons who must be considered.The course looks at fire policies and procedures and introduces the fire safety checklist that should be completed for all premises.

## Suitable for:

This course is for employees who have enhanced fire safety duties, such as a Fire Warden or Fire Marshal.

## Course covers:

Categories of fire and firefighting equipment designed to tackle each category.

The role and responsibilities of the Fire Warden.

Preparing for and evacuating people safely, including those with special requirements.
